

Private health insurance - the support you need, when you need it

Private medical insurance - sometimes called PMI, private healthcare or private health cover - gives you the reassurance of knowing that, should the need arise, you and your family will enjoy medical treatment privately, without waiting for the NHS to treat you.

For anyone who'd rather not wait for medical treatment

While the NHS does a good job in very difficult circumstances, you still might not receive your treatment as quickly as you'd like - and waiting can be emotionally or physically difficult.

The world of Private medical insurance is a very complex one and one we believe should be entered into with expert advice, we will be happy to refer you to a Private Medical Insurance specialist who can assist you further.

Personal and business schemes are available.
